Attention Martin Penny

Re: The Heritage Painting Project at Keswick Army Barracks.

Dear Martin,

I would like to thank you and all the Paint Professions team for their hard work during the recent painting project at the Keswick Army Barracks.

The Heritage Buildings at Kenwick are a significant part of the history of South Australia and the preservation of them was an important part of this year's restoration works.

I am very pleased with the quality of the workmanship performed during the project and the attention to detail provided by yourself was a significant factor in the successful outcome.

I look forward to working with Paint Professionals in the future.

Regards Paul Collins
