OUR NAME

The Penney name has been synonymous with quality painting for the past 40 years.

Paint Professionals' Managing Director Martin Penney began painting alongside his father Ron as a 10 year old when the business was known as Penney's Painting.

In the late 1970s Ron Penney had been handpicked to paint Broadlands in Romsey England, the former home of Lord Louis Mountbatten. There, he decorated the chambers of Her Majesty Queen Elizabeth II.

Building on the tradition established by his father of taking a genuine interest in customers to help them achieve the best results, Martin established Paint Professionals in 1994.

Interestingly, heritage work has endured as a mainstay of the business, with the company remaining highly regarded for its skill in decorative finishes.

OUR STORY

Over the past 17 years Martin Penney has grown the business, based on his knowledge of what clients look for in a painting service: a whole new level of professionalism.

Martin's particular expertise is in leading a team of licensed and experienced painters who continue the tradition of dedication to client satisfaction and quality work.

Today, Paint Professionals is a fully-fledged professional painting business, providing reliable, timely and cost-effective painting solutions and guaranteed service.

The business has been built on a successful outcome for each and every job—big or small, commercial or residential. Paint Professionals consistently sets new benchmarks for the industry.

OUR PAINTERS

Paint Professionals' team of highly trained painters has the capacity to handle any job at every location. Simply, they are very good at what they do, and gain personal and professional satisfaction from achieving the highest standards of workmanship using the greatest amount of care.

Every Paint Professional painter is trained to meet strict safety and courtesy requirements. They look professional too, with clean uniforms worn on the job at all times.

Clients can feel secure with a Paint Professionals' painter; each is put through rigorous background checks, including National Police Clearance. They also undergo random drug and fit-for-work compliance testing on a regular basis.

A Paint Professionals painter:

- Is safety trained, inducted and certified
- Complies with the company's no smoking policy
- Works in accordance with the concept of zero harm—to other employees, customers and the environment.

OUR PHILOSOPHY

It is Paint Professionals' philosophy to give back to South Australia and build the skills base of the state by investing in young people through apprenticeships. It currently employs eight apprentices at various stages of their trade qualifications.

The company regards this as an investment in the future of the painting profession as much as in the business itself, as apprentices give it access to a pool of home-grown talent. This, in turn grows with the business through exposure to the right attitude, training and on-the-job experiences.

OUR SERVICES

Paint Professionals delivers a professional service—on time, every time and within budget. Services range from all aspects of commercial, industrial and residential projects and associated maintenance, including Scheduled Maintenance.

COMMERCIAL & INDUSTRIAL

Paint Professionals is fully equipped and possesses the required technical know-how and skills to manage interior and exterior commercial projects and wide-ranging industrial work. It takes pride in its ability to tackle difficult challenges, and has prepared and painted many offices and commercial premises throughout South Australia and nationally.

On the job, Paint Professionals' painters are 'in and out' as and when they say they will be, which is another reason commercial clients return for subsequent projects. Paint Professionals knows its clients don't like delays, just as it doesn't. Painting teams are available to work around the clock, minimising downtime.

What clients can expect

- Fast attention to all requests
- Minimal disruption to day-to-day business
- Respect for staff, clients and the general public
- A quiet workplace
- Compliance with OHS&W regulations
- Fit-for-purpose quality paints and materials

RESIDENTIAL

Paint Professionals' painters understand the need to reduce stress to homeowners during their house-painting project. A big part of this is detailed preparation and communication—about all aspects of the job. Being clear about what is involved helps make the painting experience as pleasant as possible. Paint Professionals' painters are respectful, agreeable and work to put clients at ease in having them around. The quality of service extends to Paint Professionals' unique 'Move In' and '12 month Finished Touch' guarantees.

Paint Professionals tackles each job systematically, with nothing left to chance in delivering a professional service. When clients choose Paint Professionals, they *brush with the best*.

Boulderstone project, 20 Hindmarsh Square

- › We order the paint and deliver it to site
- › Our painters are fully briefed before they start work
- › Our painters are supervised and work is monitored daily
- › Job completed

MAINTENANCE

Paint Professionals can implement a custom-tailored Scheduled Maintenance Program, which will keep a property looking fresh and new and add years to its life. The company also undertakes maintenance work on an as-needs basis.

Maintenance Australia is a Paint Professionals aligned company, established to fill a gap in the market for property owners and managers looking for practical solutions to every maintenance challenge. Teams of skilled trades are available around the clock, and 'rapid response' mechanisms are in place for urgent situations. Maintenance Australia projects encompass anything from repairing a broken window to refurbishing an apartment building of 300 suites, through to upgrading an army barracks, supplying maintenance crews for a mine site or demolishing a house.

Established in 2010 by the Managing Director of Paint Professionals, Martin Penney, Maintenance Australia was a natural progression from Paint Professionals' vision to bring a whole new level of professionalism to the trade.

It started from a desire to provide an exceptional service to Paint Professionals' clients through the detailed preparation of surfaces and maintenance as necessary before applying paint.

Whatever the maintenance challenge, Martin Penney leads a team of experienced and qualified maintenance professionals with a high level of dedication to client satisfaction and quality work.

Maintenance Australia is:

- OHS&W compliant
- Workcover registered
- Fully insured with \$20 million public liability insurance.

THE PAINT WE USE

Whether clients are looking for paint that is best for performance, best for the environment or best for budget, there is no substitute for quality. That is why Paint Professionals recommends and uses the Taubmans range of paints.

Green Painting

There is no doubt that the world's industries are having a detrimental impact on the environment, and Paint Professionals believed in doing its part. It uses and recommends only paints that have the stamp of approval from the Green Building Council of Australia—Taubmans low VOC Pure Performance range.

The right products are one thing; work practices are another, and Paint Professionals endeavours to leave as small a carbon footprint as possible through environmentally sensitive work practices from project start-up through to project completion.

Health and Safety

The qualities embedded in Taubmans low VOC Pure Performance range help maintain a healthy and safe environment in the home or a business while a project is underway . . . and beyond. The range has been specifically formulated for architects, specifiers and trade painters. Being low in VOCs, it has minimal impact on indoor air quality, and has the National Asthma Council's Sensitive Choice Program stamp of approval.

Taubmans Pure Performance and Easy Coat ranges also contain Microban, which provides antimicrobial protection against the growth of mould, mildew and fungus on painted surfaces.

THEY SAY

"Martin always showed a great level of respect not only to myself, but also to his employees, and displayed very good leadership to his team."

Project Engineer – Baulderstone Pty Ltd SA

"Just a quick note to say thank you and your team for a job well done and the quick execution of the painting on Goodwood Road. I have received positive comments from traders and customers alike."

André Stuyt – Business & Economic Development, City of Unley

"I would like to take this opportunity to thank you for the excellent work carried out in our home... attitude, cooperation and effort were all exemplary... workmanship cannot be faulted."

John Harris – Flagstaff Hill

"It is with pleasure that I write to recommend your company... our residents are very important and your staff always have their welfare in mind."

Graham Jones – Life Care Churches of Christ

"We found your staff and workmanship, quality, professionalism, reliability and your flexibility to be excellent."

Darren Chandler – Glenelg Football Club
